

## MUN - 2025

*On 20th September 2025 an MUN (Model United Nations Conference) was held in St. Joseph's School Baramulla. Students represented various countries to deliberate about their stances on the Agendas like Climate Change, International Treaties and Illicit Drug Trade. In total there were 9 countries from Big Powers like USA, Russia and France to India, Pakistan and South Africa. Students rendered the role of Delegates and posited their views pertaining to their Agendas and the steps their respective Governments have taken regarding these Agendas ranging from combating Climate Change to Drug Trade. The prime motive behind conducting an MUN is the sensitise as well as sanitize the young minds to shun the path of violent methods and instead pave way for dialogue and deliberation.*

*Students from three Schools participated in this MUN namely St. Joseph's School Baramulla, Burn Hall School and Presentation Convent School. The show put up by the students of all the three schools was an incredible enunciation of thoughts our young minds cultivate for present as well as for the future. All of them posited alarming questions to each other. It was a healthy deliberation which could nudge even a fence sitter to take sides and become 'political'.*

*Our students proudly brought laurels to the school by bagging trophies in the following categories: Negotiation and Diplomacy, Clarity of thought and Presentation and the Best Country. The PCHSS family appreciated and accoladed the commendable performance of our young delegates. Lastly, the School would also like to thank St. Joseph's School for initiating the idea of the MUN is the humblest way and for taking measures to make it a success.*
